

**CHEMICAL OPERATOR – ENTRY-LEVEL AND EXPERIENCED**  
Catoosa, OK facility

ARC is actively seeking chemical plant operators, both entry-level and experienced.

These positions will be responsible for the operation of equipment and materials to process chemicals for use in manufacturing. Duties include: equipment operation (transfers, reading, monitoring of equipment, cleaning of equipment, and other tasks assigned to operate the equipment), transporting, loading and unloading raw materials, collecting product samples for QC lab analysis, process monitoring, safety and housekeeping, use of computerized equipment, data entry and other duties as assigned by senior operators or supervisors.

**Experience:**

Entry-level positions – no previous experience required. Warehouse or plant manufacturing – type experience preferred.

Experienced positions – 1-2 years of experience in a batch type chemical manufacturing facility required. Previous Hazmat training preferred.

Salary: Commensurate with experience.

**Must be able to:**

- Wear and use a respirator.
- Work in hot/cold work environments.
- Work 12-hour shifts.

Benefits include medical, dental and vision health insurance; Paid-Time-Off (PTO), On-site Fitness Facility, Wellness Program, matching 401k and more.

Interested applicants may apply by visiting [www.fluoridearc.com/careers](http://www.fluoridearc.com/careers) and clicking “Apply Now” or in-person at: 1110 Keystone Avenue, Catoosa, OK 74015.
